

Want to zoom in on history?

Gazing from afar doesn't cut it when you're dealing with someone like King Tut. You need to get up-close and personal.

Get as close as you dare with Notebook software 10.

Now you can magnify King Tut, brighten up Copernicus or spin Steinbeck. Notebook 10 gives you dozens of new ways to make lessons spring from the page. With 30 new features and loads of new content, Notebook software 10 helps you put the spotlight on learning. Upgrade now at
